

TEQ ARMADA SDN BHD

TEQ ARMADA CORPORATE BRIEFING

AUG 2024

CORPERATE OVERVIEW

TEQ ARMADA is committed to provide user the right solution tailored to their requirement. With team's vast experience in various background of Civil Critical Mission and Military, We provide supply and services solution that meet todays field requirement with support by strong Technology partners. TEQ ARMADA delivering the trusted solution and reliable services to customer. Post sales & support is one of the key scope offer to user to secure high field serviceability.

Sole Distributor & Sole Agent for ELNO equipment in South East Asia.

Sole Distributor & Sole agent for Bren-Tronics equipment in Malaysia.

Subsidiary Distributor & Sole agent for SAFT batteries in Malaysia.

TEQ plays significant role in intercom system solution for vehicle platform both for land and marine application.

TEQ is officially established as Bumiputra company in 2021, a new company with experience expert team which coming from military and mission critical background. Leverage on fully local engineers, we will provide value added to end user in every phase of product cycle.

TEQ has also developed technical competency and facilities to support end user ILS in the phase of Obsolescence, Last Buy Order and product end of life.

OUR VISION

TO BE A LEADER AND STRATEGIC PARTNER IN DEVELOPMENT OF MILITARY COMMUNICATION & ELECTRONICS EQUIPMENT

OUR MISSION

TO DESIGN, DEVELOP, MANUFACTURE AND TEST, FOR COMPLETE SOLUTION DELIVERY OF MILITARY COMMUNICATION & ELECTRONICS EQUIPMENT

Company Name

TEQ ARMADA SDN BHD

Registration No.

1431288-X

Date of Establishment

Form Up: Jan 2020

Bumiputra Status: 23-09-2021

Nature of Business

Designing, Developing, Manufacturing, and integrated logistic support (ILS) of Military grade communication equipment .

No of staff

Total: 25 (Marketing & Sales, RF expert, PCB designer, Mechanical Designer, System Integrator, skilled Technicians)

Office Address

B5-2A, Ostia Business Avenue
43650 Bandar Baru Bangi, Selangor

Website

: www.teqarmada.com

COMPANY CAPABILITIES

We believe in experience and capabilities of local talent for continuous support to end customer. Driven by vast experience freelance R&D talent, TEQ will ready to answer evolving requirement of customer, and to be always ready for stiff competition in open global market. TEQ focus to support end user to rely on the sustainability We continuously acquire new technology in collaboration with foreign and local industrial partners , in developing new product or solution.

Research & Development

- Development / Reverse Engineering / Contract design
- Prototyping /Testing / Production

Cable Harnesses

- Harness for power distribution, control panel, comms and data
- Manufacturing and assembling complex military standard cables (Armored Vehicles)

Vehicle Intercom System

- New generation with full IP system
- Proven working with all available radio / communication system
- Local support

Integrated Logistic Support

Obsolescence Management

- Technical evaluation for part replacement
- Part Alternative solution
- Reverse Engineering

Design & Manufacturing

Subcontracting

- Services for electronic box
- Development of new product /
- Service for Test and qualification for military product

Repair and Maintenance

- Preventive and Corrective maintenance for communication equipment
- Supply of parts
- Services for technical support

Your Partner in Communication and Power Solutions, System Integration, Industrialization & After Sales Support

COMMUNICATION SYSTEM INTEGRATION

This intercom system is proven for MBT, Light Armored Vehicles, Logistic Vehicles and Artillery, Wheeled and Tracked Vehicles and Combat Boat . TEQ is sole agent from ELNO and with vast local team experience we will deliver to end user with full support for integration, commissioning and after sales support.

ADNAN ACV

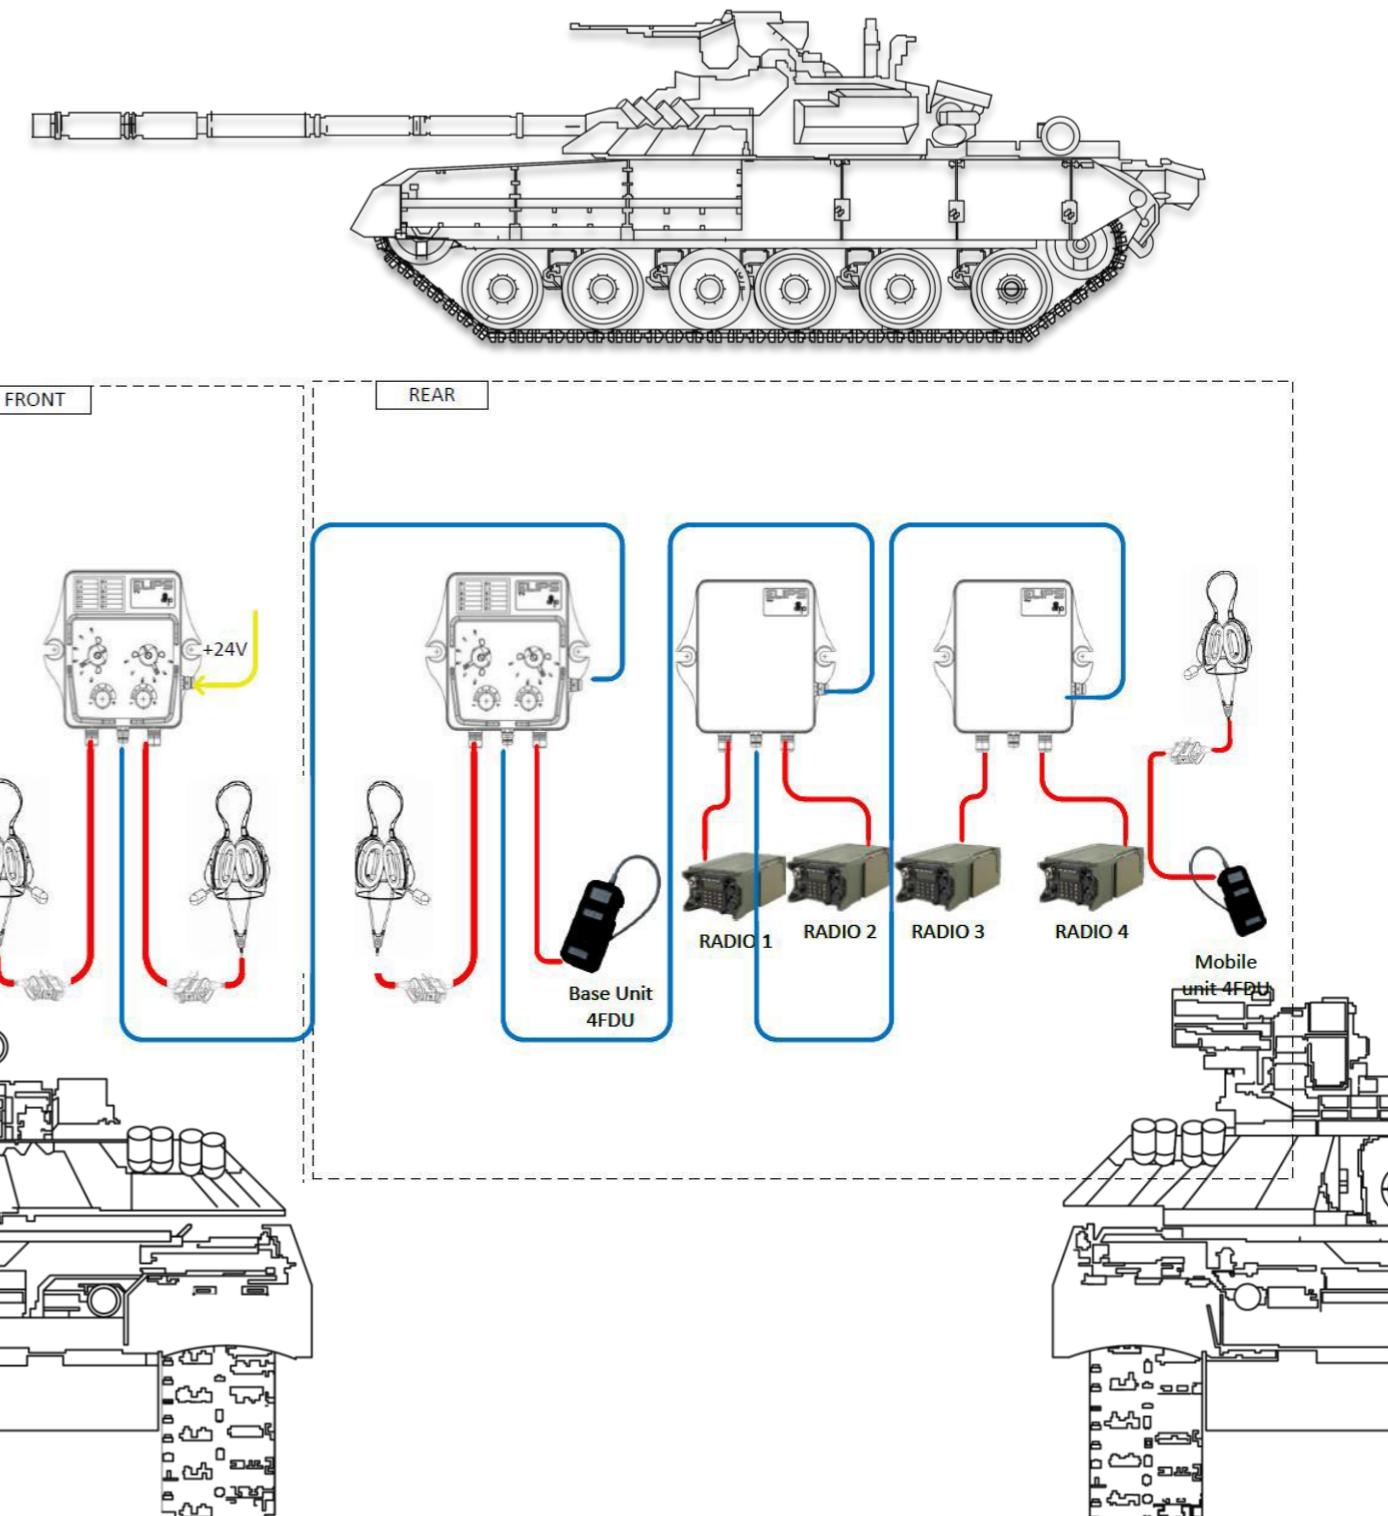

15 Meter Special Force Interceptor Boat

Our ability to break down various communication protocols into a common plug-and play layer has resulted in development of key technologies that simplify the complexity in integrating and connecting all types and generations of fixed and mobile assets of the Malaysian Armed Forces.

- **Proven working with other radio brand**
- **No central box (easy for configuration & Maintenance)**

CABLE & HARNESS

We design and manufacture commercial and military grade cable assemblies and harnesses for Military Communications, Tanks and Armoured vehicles, in high performance applications. Thanks to our worldwide established supply chain that support TEQ to meet the deliverables with genuine source with non-compromise in reliability
TEQ welcome to support other partners to provide the services under local content scope

- Co-design standard & complex harnesses with platform manufacturer
- Customized wire & harnesses manufacturing by integrating high flexible stranding configurations.
- Customized wire & harnesses for equipment manufacturer provider

Command & Control System

Communication Equipment

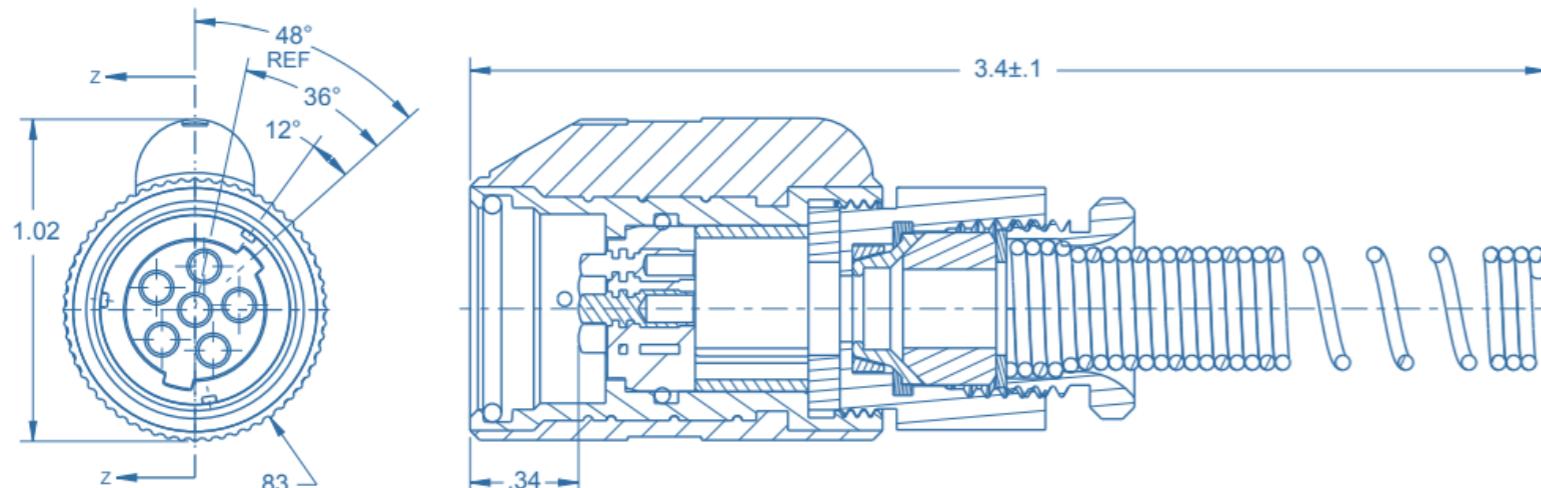

Armoured Vehicles

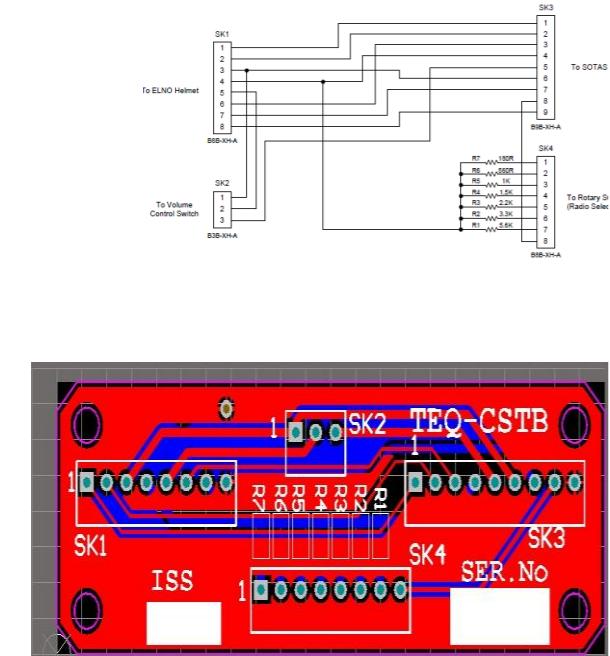

Commercial Vehicles

Soldier Systems

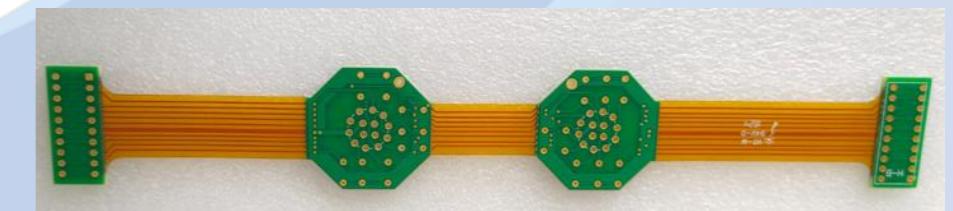

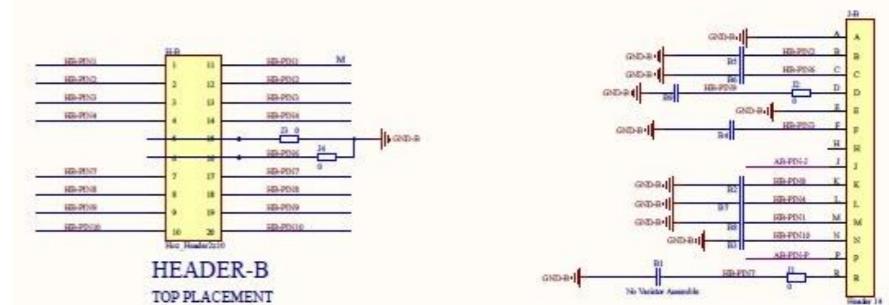

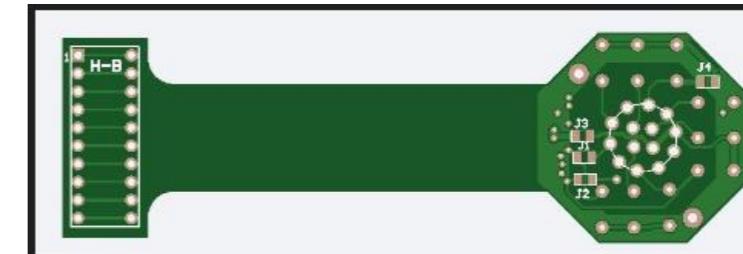

Communication Chest Box

URC 200 Battery case

Flexi PCB

Customer : Ministry of Defense under supply chain obsolescence program

INTEGRATED LOGISTIC SUPPORT (ILS)

Supply of Spares

- Harness
- Helmet / handset / headset
- Antenna
- Battery / Charger

Repair Services

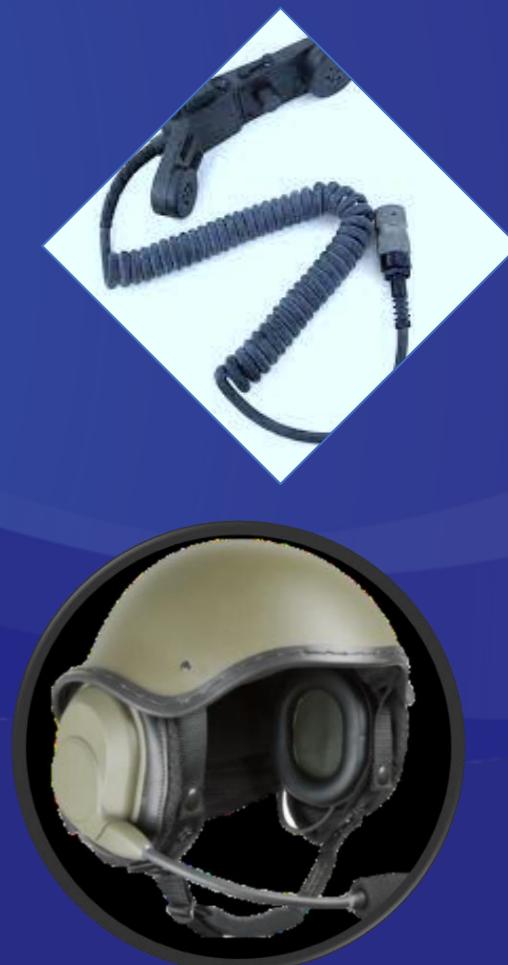

- Harness /Helmet
- Modules / PCBA
- Other accessories

Obsolescence Services

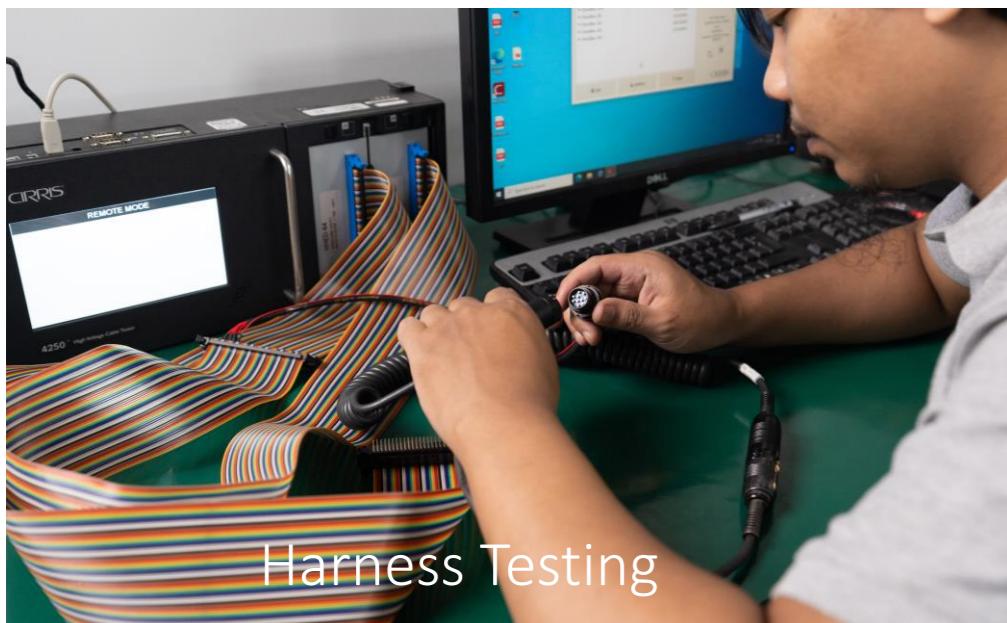

- Life extension
- Alternative part
- Reserve engineering
- Qualification

Training Services

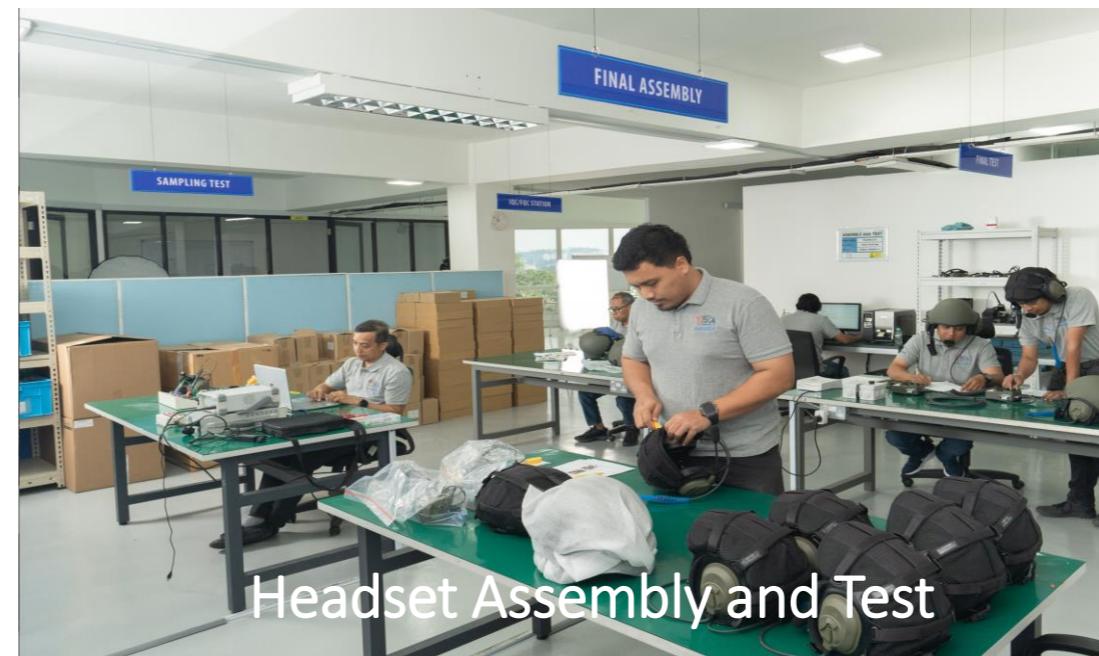

- Product training
- Maintenance training

TEQ Facilities

Harness Testing

Headset Assembly and Test

Complex Harness Repair

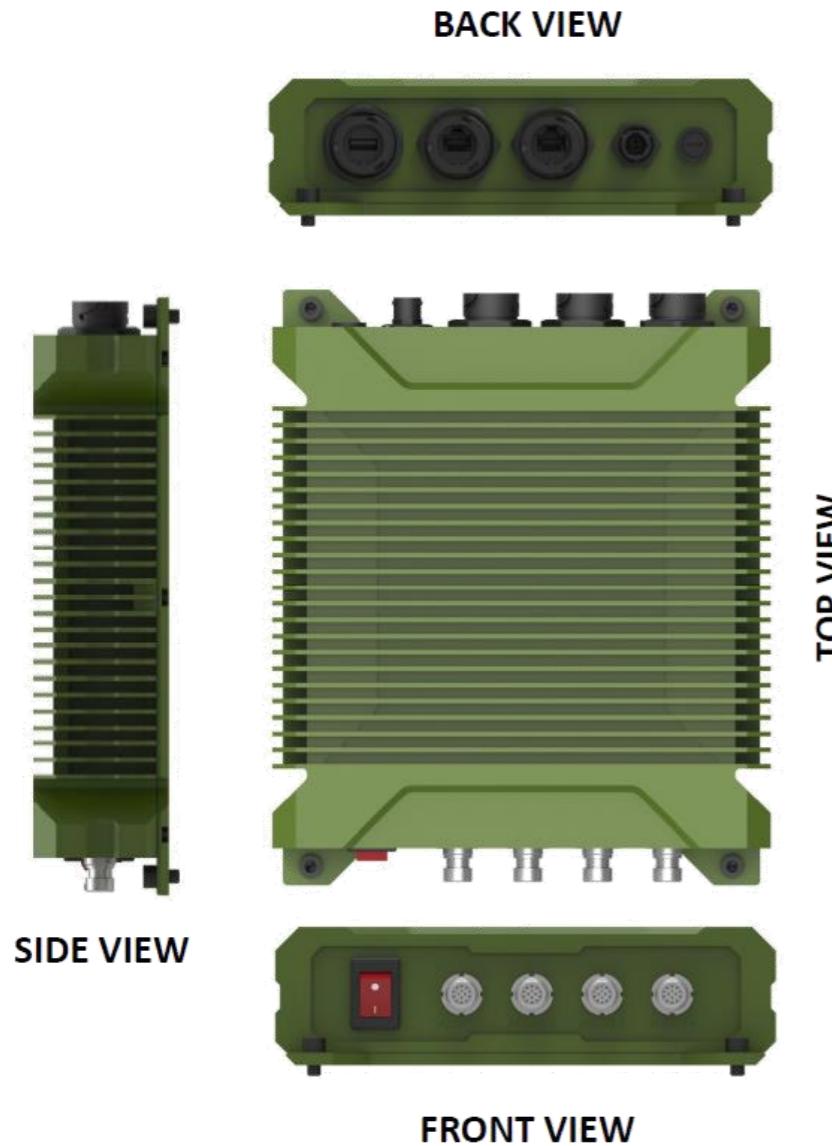

CAD

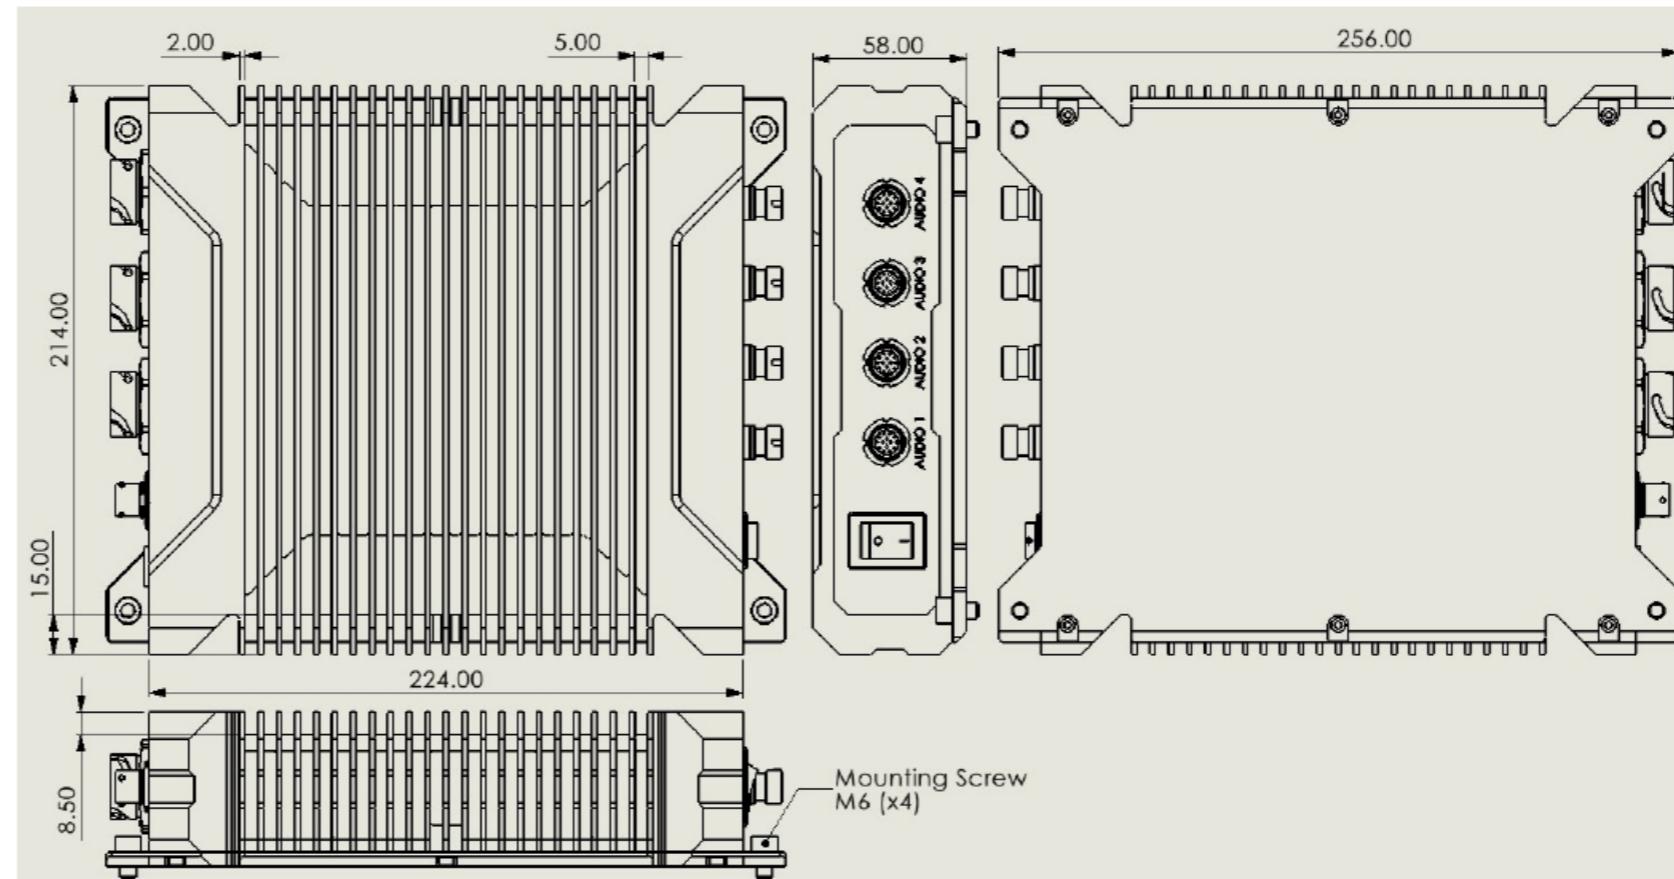

Battery Production and Test

VRG- VoIP Radio Gateway

DIMENSION - OUTER

First prototype: Sept 24
Final Prototype: Dec 24
Mass production : T0+6

Project team
1 x Project Manager
1 x Hardware Engineer
1 x Embedded SW engineer
1 x Mechanical Engineer
1 x PCB /Schematic Engineer
1 x Electronic Engineer

1 x Configuration Manager
1 x System Engineer
1 x Validation /Quality Engineer
1 x Industrialization Engineer

TEQ as Sole distributor

(Use by ADNAN / MIFV /
CONDOR / SCORPION VEH
- ETT125)
